

Your Bali. A little easier.

A pocket checklist. No villa or app required.

Save before heading out

Accommodation pin, host contact, travel insurance and official provider contacts. Keep passport copies separate and avoid sharing sensitive details in enquiry forms.

Arrive and settle

Check entry rules using official immigration information. Set up mobile data, agree the pickup point and price, and ask your accommodation about drinking water and Wi-Fi.

Make a good day

Browse regional ideas, food, walks, surf and gyms. Check current hours and availability directly. Ask instructors about ability and conditions. Arrange a safe way home before a night out.

Where to start

hmbali.com - services and local guides. /essentials - checklist and day-plan ideas. /ask - guides and personal enquiries. /guide - practical information. You can use the same tools from a villa, hotel, hostel or café.

When you need a service

Share the service, people, date, time in Bali, location and preferences. An enquiry is not a booking. Confirm the total price, availability, cancellation rules and verified payment method with the provider.

When it is urgent

Contact local emergency services, your accommodation or a qualified provider directly. Hmbali enquiry forms are not emergency assistance, medical advice or a guaranteed live support channel.

Offline checklist only. Recheck official travel and provider information before acting. Public guest access and domain setup must be enabled before distribution.
